### **REMARKS/ARGUMENTS**

#### ***Claim Rejections – 35 USC § 112***

Under 35 USC 112 the Examiner has rejected claims 7-18 for defects of antecedent basis identified in claims 7 and 11. Claims 7 and 11 have been amended accordingly to correct the identified defects. Therefore, the Examiner's rejection of claims 7-18 is traversed.

#### ***Claim Rejections – 35 USC § 102***

Under 35 USC 102(e) the Examiner has rejected claims 7, 10 and 15-18 as being anticipated by Care et al. (US 6,893,478). Claim 7 has been amended accordingly to distinguish claim 7 over Care et al. Care et al. teach a centrifugal air oil separation system substantially positioned inside a rotatable hollow shaft disposed substantially horizontally, and comprising an annular separating chamber. Care et al.'s annular separating chamber is defined in combination with the hollow shaft, that is, a portion of an external wall of the hollow shaft forms part of the annular separating chamber. Thus, Care et al. do not disclose the features of the centrifugal air/oil separation system defined in the amended claim 7. Thus, the Examiner's rejection of claim 7 is traversed.

Claims 10 and 15-18 depend directly or indirectly from allowable base claim 7 and stand together with the allowable base claim for patentability.

Claim 8 which depends directly from claim 7, has been amended accordingly due to the amendments to claim 7.

Applicant gratefully acknowledges the Examiner's statement regarding the allowability of claims 8, 9 and 12-14. As a result of the amendments to claim 7, claims 8, 9 and 12-14 now depend directly or indirectly from an allowable base claim (amended claim 7).

It is believed that this application is now in condition for immediate allowance.  
Favourable reconsideration and early issuance of the Notice of Allowance are  
respectfully solicited.

Respectfully submitted,

By:
